Layout image

A flat plan of artwork arranged on the 90×178 mm sticker area. The paper backing is 90×220 mm.

01 / Layout image with 8 pieces

Sticker area

90×178 mm

Paper backing

90×220 mm

Each piece

32×32 mm

Space between pieces

6 mm or more

Pieces in this layout image

8

Each coloured shape is one piece; the flowers and lettering inside are printed artwork. The 8 pieces shown are one possible arrangement. The piece count follows your artwork sizes and layout.

The editable template is a blank white working area.

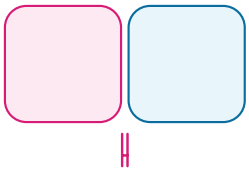
Place your own artwork in the SVG or PDF named “02_Place-artwork_90x178mm”. The editable sticker area is 90×178 mm; the paper backing (90×220 mm) is a separate size.

Only have images or a logo? Talk to us.

Minor size/layout edits and white-ink/cut-line setup are included; PNG/JPG cost no extra. New artwork, logos or backing-card designs: JPY 80,000+ (excl. tax). Redrawing/complex image edits: quoted and approved before work.

Before you send: three checks.

Each drawing on the left needs fixing. Follow the notes on the right.



1 mm

01 / Pieces too close

Layout guide: 4 mm or more, edge to edge.

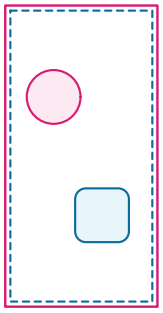
The two pieces on the left are only 1 mm apart. Where bleed areas overlap, we fine-tune the spacing and shapes for you. For the margins of each piece, see page 2 of “01_How-to-use.pdf”.

6 mm 10 mm

02 / Piece too small

Approx. 10 mm minimum to 30–50 mm maximum as a guide.

Possible sizes depend on shape, thickness and layout. Larger pieces leave room for fewer pieces on the sheet. On the left, a 6 mm circle beside a 10 mm circle for comparison. Enlarge artwork that is too small.



03 / Guides left in the export

Remove the frame and dotted line before saving.

The drawing on the left still shows the sticker-area frame and the dotted placement line. In the SVG, hide the “01_Guides_hide-before-sending” layer; in the PDF, delete the guide lines.

Before saving and sending

Check that images are embedded and, if you can, that text is converted to outlines.
Keep lines at least 0.3 mm thick and corner radii at least 1 mm. For RGB colours, see page 2 of “01_How-to-use.pdf”.
Attach up to 3 PNG, JPEG, WebP or PDF files, 10 MB in total, to the enquiry form.
For AI, SVG, PSD or ZIP files, or anything larger, send a shared link.
